Hi Daisy: I'm pitching in for Cheryl while she is on leave. Could ask Nebraska for a copy of their SOP for nitrate-N concentrations analysis? Thanks.

Daisy,

Attached is an updated spreadsheet summarizing the nitrate-N concentrations measured and stable isotope results for 71 of the 87 samples received in April and May. Let me know if you need any additional information, or would prefer a different format. Thanks! -Dan

Hi Dan,

Just checking in – our SOW specifies that results for the N15 isotope and nitrate-nitrite will be provided in 28-42 days. Will you be able to provide the results for the 87 samples within the next 2 weeks?

Here is a brief summary of the number of samples sent by EPA during the week of 4/30:

University of Nebraska Laboratory: 87 samples sent 4/30/18 = 22

5/1/18 = 26 5/2/18 = 28 5/3/18 = 11

Thank you, Daisy Wang 703-829-0539
